Subject: Pine View Estates 6-4-10

Good afternoon Aaron---

I thought I'd try this method since we're playing phone tag. ☺

It's my understanding that EXD Engineering is no longer working for Pine View Estates.

I wanted to find out exactly what functions and reporting they performed on Pine View's behalf for the USEPA so that we might fulfill those duties in their place.

You had mentioned that you had not been receiving the monitoring reports in

your voicemail. So, I was wondering what months you are missing. We may be able to help out in that area as well.

Thanks for your time...

Cindy Parrish
